COMMUNICATION.

AUDITOR GENERAL'S OFFICE,
Harrisburg, February 7, 1848.

Hon. WM. F. PACKER,
Speaker of the House of Representatives:

SIR:—I have the honor to transmit, herewith, in compliance with a resolution, of which the subjoined is a copy, a tabular statement relative to State Tax on Real and Personal Estate, and to Common Schools.

With great respect,
Your obedient servant,
JOHN N. PURVIANCE.
Auditor General.

"IN THE HOUSE OF REPRESENTATIVES,
January 14, 1848.

"On motion of Mr. Fernon,

"*Resolved*, That the Auditor General be requested to furnish this House, as soon as practicable, with a statement in tabular form, showing the valuation of all property, trades, professions, &c., made taxable for State purposes, in the several counties of the Commonwealth, for the years 1845 and 1847; the amount of tax assessed therein, and the amount received therefrom, for the years 1841, 1842, 1843, 1844, 1845, 1846 and 1847; together with the amount now outstanding and due to the Commonwealth: also the amount paid out of the State Treasury, to the Common Schools in the several counties, during each of the years herein specified.

"Extract from the journal.

"WM. JACK, *Clerk.*"

EXPLANATORY REMARKS.

Wherever an asterisk occurs, thus, (*) it signifies that the sum to which it is prefixed is estimated. Those estimates, however, are sufficiently near to the correct amounts to serve for all practical purposes. Again, where no reports have been received from the county auditors, the sums designated thus, (†) are those furnished by the county commissioners.

The valuations for the year 1845 are those which were fixed by the late Board of Revenue Commissioners, whilst, for the year 1847, they are the amounts upon which the last triennial assessments of the county commissioners are based, except in cases where estimates have been substituted for the proper returns, which the latter have failed to make.

Though the minimum rate of taxation is three mills on the dollar of valuation, yet, it will be perceived that, in some counties, the tax assessed for the last year falls below it. For Allegheny county, this is partly explained by exemptions under the act of 14th April, 1845. The amount of valuation upon which no tax is assessed in said county, is $1,445,950, leaving, subject to taxation, the sum of $18,413,079.

An apparent inequality in the assessments in one or two of the smaller counties, for some years, may be observed. This is in consequence of the receipts for tax on unseated lands varying the amounts.

The moneys received from Tioga county, during a portion of the time embraced herein, were, for want of proper directions to the State Treasurer, sometimes credited to account of State tax, when they should have been applied to other accounts. This will explain the apparent inconsistency of the amount received from that county, with the outstanding tax, exceeding the aggregate of assessments. The total amount of tax received from the said county, up to the close of the last financial year, would be correctly stated at $17,456$\frac{97}{100}$.

The differences between the aggregates of tax assessed and tax received and outstanding, are constituted by exonerations, commissions to collectors and county treasurers, and whatever sums may be due to the Commonwealth on this account by late and former treasurers.

The outstanding tax is subject to further exonerations and commissions.

A TABULAR STATEMENT

SHOWING the assessed valuation of all property, trades, professions, &c., made taxable for State purposes, in the several counties of the Commonwealth, for the years 1845 and 1847; the amount of tax assessed therein, and the amount received therefrom, for the years 1841, 1842, 1843, 1844, 1845, 1846 and 1847; together with the amount outstanding and due to the Commonwealth, on the 1st day of February, 1848: also, the amount paid out of the State Treasury to the Common Schools in the several counties, during each of the said years.
